

**GENERAL SIR JOHN KOTELAWALA DEFENCE UNIVERSITY**  
**Faculty of Built Environment & Spatial Sciences**  
SELECTION TEST FOR THE ENROLLMENT OF DAY SCHOLARS – INTAKE 39  
**ASSESSMENT OF SPATIAL COGNITION**  
**(MODEL PAPER)**

---

<b>Examination Date</b>	:	<b>Duration</b>	:	Two Hours
-------------------------	---	-----------------	---	-----------

---

**Instructions to Candidates:**

- Answer **all** questions
- Use the drawing sheets provide when answering **Questions 1 & 2**
- All drawings should be **rendered in colour**
- Question **No 3** to be answered in **English** in the given space
- All examinations are conducted under the **rules and regulations of the KDU**.

---

**1. Assessment of Spatial Cognition**

Imagine that you are walking along a pathway of a ruined and ghostly city, abandoned due to intolerable environmental pollution. Both sides of the pathway is densely built up with dilapidated buildings and you can hardly see even a green patch around. Instead the whole area is surrounded by thick layers of dust and fumes, humps of garbage and ditches of contaminated water. Harshness of the climate and unpleasant environment has made you exhausted.

At the furthest end you could see a ruined pavilion built across the road, with a sign board hanging on top of its closed, worn out large entrance indicating ‘THE MIRACLE’.

Opening the door you could visualize the Heaven on the earth, beyond.

What are the emotions that you experience when you suddenly chance upon this spectacle?

Sketch this scene using the coloring material of your choice.
