1 Purpose

Gender Equity and Equality is not only a fundamental human right but also essential for a peaceful, prosperous, and sustainable world. General Sir John Kotelawala Defense University (KDU) as a center of higher study for thousands of local and foreign, military, police and civil students, considers a high level of gender awareness and zero gender-based discrimination critical for the welfare of its students and staff. Bearing this in mind, KDU has taken up the responsibility and challenge of preventing, mitigating and responding to any gender-related issues by establishing a Centre for Gender Equity and Equality (CGEE) at KDU in September 2020. The CGEE aims to promote a gender-sensitive university culture and university environment that allows students and university staff (Academic, Administrative, Support) to pursue their work free of oppression and discrimination based on their gender while ensuring gender awareness among its' community.

2 Policy Framework

KDU's policy for gender equity and equality is to prevent SGBV and other forms of gender discrimination by addressing them at their roots and ensuring fairness and justice in the sharing of opportunities, benefits, and responsibilities between the men and women of the institution. The institution also seeks to promote equitable participation in decision making and reducing barriers to Gender Equity and Equality. In order to respond to SGBV when it occurs, the institution proposes to take disciplinary procedures.

3 Scope

The scope of this Gender Policy is to promote a gender-equal place of study and work, where all students (day scholars, police and military) and all academic, administrative and support staff (civil, military and police) are treated with respect, where no individual or group of people is excluded, and where discrimination and harassment based on gender are not tolerated. This policy applies to all members of the university, including students, university staff, visitors, and any individual regularly or temporarily employed, studying, living, visiting, conducting business, or having any official capacity at the university.

4 Objectives

The primary objective is to mainstream gender concerns across all sectors of the university so that all negative and discriminatory social and cultural behaviors can be eliminated.

The KDU Gender Policy's secondary objectives are to address SGBV issues in three primary areas:

- 4.1 Prevention
- 4.2 Risk Reduction
- 4.3 Response

Intervention in all three areas is necessary to effectively combat SGBV. The implementation and conduct in these three areas are as follows.

4.1 Prevention

This approach refers to actions that prevent SGBV from occurring by addressing them at their roots, namely gender inequality, systemic discrimination, and unequal power relations between women and men.

The KDU CGEE policy will:

- 1. Provide fair and equal rights and access to opportunities for students and university staff (Academic, Administrative, Support) to pursue their studies and careers.
- 2. Ensure that gender equity and equality are integrated into the student enrollment process and staff (Academic, Administrative, Support) recruiting and decision-making processes.
- 3. Support maintaining a gender-balanced university culture by equally respecting and valuing everyone's dignity regardless of status and designations.
- 4. Promote the use and practice of gender-sensitive language.
- 5. Prevent the occurrence of SGBV and discrimination among the KDU community.

4.2 Risk Reduction

Risk Reduction refers to a process and certain interventions in all stages of humanitarian programming. It comprises actions taken in humanitarian work to reduce risks and exposure to SGBV and increase safety as a part of an agency-wide mainstreaming approach.

The KDU CGEE policy will:

- 1. Ensure that all staff (Academic, Administrative, Support) and students are aware of their rights and responsibilities regarding SGBV in the University.
- 2. Create a sound knowledge about GEE and SGBV and their consequences among the KDU community.
- 3. Create awareness of the procedure of reporting for victims of SGBV.

4.3 Response

Response includes immediate actions in-line with the survivor-centered approach, which addresses survivors' physical safety, health concerns, psychosocial needs, and access to justice.

The KDU CGEE policy will:

- 1. Provide adequate security and surveillance to prevent SGBV.
